Healthfirst Comprehensive Drug List

This list is a guide to all of the drugs Healthfirst covers on your prescription benefit plan.

You and your covered family members must use network pharmacies to get all prescription medicines. Your benefits, drug list, and/or pharmacy network may change at times.

Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber.

This list represents a summary of prescription coverage. It is not inclusive and does not guarantee coverage. Any brand-name medicine for which a generic product becomes available may require prior authorization or may not be covered. Unless specifically indicated, list products will include all oral dosage forms, except for orally disintegrating formulations. This list represents brand-name products in CAPS and generic products in lowercase italics. This is not an all-inclusive list. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to **www.healthfirst.org** to check coverage.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with Healthfirst.

Frequently Asked Questions

Q: What is the Healthfirst Comprehensive Drug List?

- **A:** The Comprehensive Drug List is a list of medicines covered by your benefit plan. Healthfirst Plans work with a team of doctors and pharmacists to choose medicines that provide quality treatment. Healthfirst will cover medicines on this list as long as:
 - The medicine is medically necessary
 - The prescription is filled at a Healthfirst network pharmacy
 - · Other plan rules are followed

Please review your Subscriber Contract for more information on coverage and how to fill your prescriptions.

Q: Can the Comprehensive Drug List change?

A: Yes, the list can change. Reasons include:

- Removing medicine from our list of covered treatments
- Adding the need for Prior Approval or Authorization (when your doctor must explain and give medical reasons why you need a certain medicine and why a covered option will not work for you)
- Adding Quantity Limits (when you can only get a certain amount of medicine at one time)
- Adding Step Therapy rules (when you have to try one type of medicine as a first step in treating your condition before you can try another type of medicine)

 Moving a medicine to a higher Cost-Sharing Tier (when you have to pay more of the prescription cost)

If you are affected by a change, we will tell you at least 60 days before the change goes into effect.

Q: What else could result in changes to the covered medicines on the list?

A: We take medicine off our list and let affected members know right away when:

- The FDA (US Food and Drug Administration) decides a product is unsafe
- The company that makes the medicine removes it from the market

Q: How do I use the Comprehensive Drug List?

A: Use the list to check if your current medicines are covered options. If not, ask your doctor if a medicine on the list is right for you. Also, take the list with you each time you or your family visits a doctor.

There are two ways to find your medicine on this list. Medicines are listed by the body system or health condition they commonly treat and alphabetically.

1. Body System or Health Condition

The list starts on page 1. The medicines are grouped by the body system or condition they are commonly used to treat.

- If you know what your medicine is used for, look for the heading on the list that starts on page 1
- Then look under the heading for your medicine

2. Alphabetical Listing

Medicines are listed in alphabetical order in the Index. The Index starts on page 113. Generic and brand names are listed together by the first letter of the medicine name. This list can help you find your current medicine if you are unsure what body system or condition to look under.

- Look in the Index and find your medicine
- Next to your medicine is the page number where you can find coverage information
- Turn to that page, locate the first column of the list, and find the name of your medicine in that column
- Read across the second and third columns. to check the Cost-Sharing Tier and restrictions/limits

Q: What are generic medicines?

A: Healthfirst covers both brand-name and generic medicines. A generic medicine is approved by the FDA. It must have the same active ingredient and perform the same as the brand name. Generics usually cost less than brand names, but can provide the same quality of treatment.

Q: Are there any restrictions on my coverage?

- **A:** Some covered medicines may have more coverage requirements or limits. These requirements and limits may include:
 - **Prior Authorization:** Healthfirst needs your doctor to submit and get Prior Approval or Authorization for certain medicines. This means that you need to get approval from Healthfirst before you can fill your

- prescriptions. If you don't get approval, Healthfirst may not cover the medicine.
- · Quantity Limits: For certain medicines, Healthfirst limits the amount that it will cover. For example, Healthfirst covers 28 Tamiflu 30 mg tablets every 180 days. This may be in addition to a standard 1-month or 3-month supply.
- **Step Therapy:** Healthfirst requires you to try certain medicines as the first step in treating your condition before covering another option. For example, if Drug A and Drug B both treat your condition, Healthfirst may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Healthfirst will then cover Drug B.

You can find out if your medicine has any requirements or limits by looking at the list that starts on page 1. You can also get more information about the restrictions for specific covered options by visiting www.healthfirst.org.

You can ask Healthfirst to make an exception to these restrictions or limits. See the answer to the question, "How do I ask for a coverage exception?" on page iii.

Q: What are OTC (over-the-counter) medicines?

A: OTC medicines are nonprescription products that are not usually covered by a prescription benefit plan. Healthfirst pays for certain OTC medicines, but your cost may differ among them. Please see the Comprehensive Drug List that starts on page 1 for more information.

Q: Does my plan cover prescription medicines that are considered "Preventive Services" under the Affordable Care Act?

- A: The HHS (U.S. Department of Health and Human Services) has adopted Guidelines for Preventive Services under the ACA (Affordable Care Act). Under the ACA, some prescription benefit plans may provide a range of preventive services for \$0 member cost share and are designated as Tier 0 on this document. These items may include:
 - Aspirin to prevent cardiovascular disease
 - Fluoride and/or iron supplementation in children
 - Folic acid supplementation for women expecting or planning to be pregnant
 - Tobacco use counseling and cessation intervention
 - Immunizations
 - Women's health preventive services (e.g., contraceptives, emergency contraception)

A list of the covered preventive services is available on our website at www.healthfirst.org, or will be mailed to you upon request. You can request the list by calling Member Services at 1-888-250-2220, Monday to Friday, 8am–8pm, or by calling the toll-free number on the back of your Member ID card.

Q: What if my medicine is not on the list?

A: If you learn that Healthfirst does not cover your medicine, you have two choices:

 You can ask Member Services for a list of alternative options that are covered by Healthfirst. When you get the list, show it to

- your doctor and ask him or her to prescribe an alternative that is covered by Healthfirst.
- You can ask Healthfirst for an exception to cover your medicine. Read on for information about how to ask for an exception.

Q: How do I ask for a coverage exception?

- **A:** You can ask Healthfirst to make an exception to our coverage rules. There are different types of exceptions that you can ask us to make:
 - You can ask us to cover your medicine if it is not on our Comprehensive Drug List.
 - You can ask us to remove a restriction or limit. For example, Healthfirst limits the amount of certain medicine that we will cover. If your medicine has this quantity limit, you can ask us to remove the limit and cover a larger amount.

Q: Will my request for an exception be approved?

- **A:** Generally, Healthfirst will only approve your request for an exception if the covered options included on the plan would:
 - Not be as effective in treating your condition.
 - Cause you to have adverse medical effects.

Q: How do I find out if my exception has been approved?

- **A:** When you ask for a utilization restriction exception, please send a statement from your doctor that supports your request. Then:
 - We will make our decision within three business days of receipt of your doctor's supporting statement.

- You can ask for an expedited (fast) exception if your doctor believes that your health could be seriously harmed by waiting up to three business days for a decision.
- If your expedited (fast) request is granted, we will give you a decision no later than 24 hours after we get your doctor's supporting statement.

Q: How do I get more information about my benefit plan and coverage?

A: For more information about your Healthfirst prescription benefit plan and coverage, please look at your Subscriber Contract and other plan materials.

If you have questions about Healthfirst plans, please call Member Services at 1-888-250-2220, Monday to Friday, 8am-8pm. TTY users please call 1-888-542-3821. Or visit www.healthfirst.org.

Q: Why do my diabetes drugs have a different copayment?

A: Some diabetes supplies, insulin, and oral medications are provided as a part of a separate benefit setup. This means that the amount you pay may differ from the other drugs listed on this formulary. These drugs have a caret (^) next to them on the drug list. See your Summary of Benefits to find out how much you will pay for these drugs.

Healthfirst Comprehensive Drug List

The Comprehensive Drug List gives coverage information about all of the medicines on Healthfirst plans. If you have trouble finding your medicine on the list, turn to the Index.

The list is up to date as of January 2025. To get updated information about the medicines covered by Healthfirst, please visit www.healthfirst.org or call Member Services at 1-888-250-2220, Monday to Friday, 8am-8pm. TTY users please call 1-888-542-3821.

The list is divided into three columns:

- Column 1 lists the medicine name. Brand-name medicines are capitalized. For example, DIOVAN. Generic medicines are listed in lowercase italics. For example, simvastatin.
- Column 2 lists the Cost-Sharing Tier for the medicine.
 - Tier 0: Drugs indicated as tier "0" are preventive drugs that are provided at no cost under your plan
 - Tier 1: Drugs on tier 1 will generally be the lower-cost drugs when covered under your plan
 - Tier 2: Drugs on tier 2 will generally be more expensive than tier 1 drugs but not as expensive as tier 3 when covered under your plan
 - Tier 3: Drugs on tier 3 will generally be the most expensive drugs when covered under your plan
- **Column 3** lists the coverage Requirements and Limits Healthfirst has for the medicine. Please review the LEGEND to learn about each Requirement or Limit.
